

Stop Stress in Its Tracks

Try these tips to reduce stress fast.

- 1. Count to 10 before you speak or react.
- Take a few slow, deep breaths until you feel your body relax a bit.
- **3.** Go for a walk, even if it's just to the restroom and back. It can help break the tension and give you a chance to think things through.
- **4.** Try a quick meditation or prayer to get some perspective.
- **5.** If it's not urgent, sleep on it and respond tomorrow. This works well for stressful emails and social media trolls.
- **6.** Walk away from the situation for a while, and handle it later once things have calmed down.
- 7. Break down big problems into smaller parts.

 Take one step at a time instead of trying to tackle everything at once.
- **8.** Chill out with music or an inspiration podcast to help you rage less on the road.
- **9.** Take a break to pet a dog, hug a loved one or help someone.
- **10.** Work out or do something active. Exercise is one of the best antidotes for stress.
