

HEALTHY HEART, HEALTHY BRAIN, AND HEALTHY AGING

Choices you make today can help prevent stroke and heart disease and keep you mentally sharp as you age.

American
Stroke
Association.
A division of the
American Heart Association.

Avoid **brain problems** like stroke, memory loss and difficulties with thinking and learning by **taking the following actions:**

MANAGE BLOOD
PRESSURE, BLOOD
GLUCOSE &
CONTROL
CHOLESTEROL

SLEEP
WELL

STOP SMOKING &
LIMIT ALCOHOL
INTAKE

EAT
BETTER

MONITOR
COGNITIVE
CHANGES

GET
PHYSICALLY
AND SOCIALLY
ACTIVE

LOSE
WEIGHT

150 MINUTES
OF PHYSICAL ACTIVITY
PER WEEK
& A WELL-BALANCED DIET
CAN IMPROVE MEMORY
AND YOUR ABILITY TO PROCESS INFORMATION

Research shows a **brain-healthy diet** is:

HIGH in fruits, vegetables, poultry, fish, nuts,
whole grains and low-fat foods

LOW amounts of red meats, sweets, sugar-sweetened
beverages, saturated fat and cholesterol

**80% OF STROKES
AND HEART DISEASE
MAY BE PREVENTABLE¹**

All systems of our bodies work best when they have optimal blood flow, and our brain's ability to think, regulate, control our bodies and enjoy life is no exception.
