- Sodium Reduction in Communities Program – for states and large cities to reduce sodium consumption
- Paul Coverdell National Acute Stroke Program – quality improvement in care in pre-hospital, in-hospital, and post-discharge care settings
CDC’s Approach to Chronic Disease – Working Toward Healthy People in Healthy Communities

- At the state health department level affords coordination of approaches to hypertension, diabetes, nutrition, physical activity and obesity, focusing on:
  - Epidemiology & surveillance
  - Environmental strategies that reinforce healthful behaviors and expand access to healthy choices.
  - Health systems interventions to improve the delivery and use of clinical and other preventive services.
  - Community programs linked to clinical services—to better support, improve, and sustain chronic disease self-management
Opportunities

- **Coverdell**
  - Initiation of secondary stroke prevention
  - Education of stroke teams
  - Patient/Public education
  - Other
Thank You!
